

## MLD-100 Laser Distance meter

Package includes:  
 - Main unit  
 - Battery  
 - User's manual  
 - Strap  
 - Carrying bag

### Overview:

MLD-100 is a handy laser distance meter with protected body and quick response time that can be used when quick and accurate distance, area and volume measuring is required.

The meter has the ability of recalling the Minimum and Maximum values.

The device is a durable meter with user friendly application that can serve as a useful tool for experts and usual users.

It can be used in road construction industry, civil engineering, ship manufacturing, architecture, sports, etc.

### Features:

- Distance / Area / Volume
- Continuous measurement
- Indirect measuring (Pythagorean)
- Real-time distance
- Buzzer & Bubble level indicator
- LCD Backlight & Battery indicator

Parameter	Values
Measuring range	0.05-100m/320-ft
Accuracy (typical)	±1.5mm
Measuring units	M/in/ft
Screen Display	4lines
Laser Class	Class2M II
Laser Type	635nm, ≤1mW
Historical data	20Group
Self-closing laser	30s
Button life	≥1million
Protection	IP54
Operation TEMP	0°C~40°C
Bluetooth	Optional
Auto Power Off	180s
Weight	110g
Dimensions	120*50*30mm
Power supply	AAA2*1.5V
