

Belt Tension Tester (BTT-2880)

Product Description

Main used in belt tension measurement, also can to measure the tension of objects such as tapes, wires. Widely applied in Industries of automobile, textile, cables, wires, plastic films, paper and printing.

Features:

* Metric/Imperial

* Auto power off

Measuring range 0-750N, 0-120b, 0-77kgs, 0-144 SEEM

Accuracy $\leq \pm 5\%$

Belt state indication Low, OK, Hi

Resolution $\pm 1N$ (or at least one significant digit of other units)

Belt width $\leq 36mm$

Overload alarm 750N

Max. Load 850N

Interface RS232C

Power 4x1.5v AAA(um-4) batteries

Operating condition 0 ~ 50& ordm; C, < 85% RH

Dimension 135x62x33mm

Net weight 335g(not including batteries)

Optional accessories cable and software for RS232C
