

BESTONE Earth Tester ET4105

Application

This groundmeter is designed for testing ground wire of electric power net, as well as earth voltage test in the fields of household electric power system and delectric appliance application

Key Features :

- * Dustproof and waterproof struture of the product meets IEC 60529, the unit can be used under very bad weather.
- * Big sized LCD display and backlight
- * Simple and easy operation, wide application.
- * High precision and economical
- * Auto turn-off

Specifications :

- * Measuring method: Two lines/three lines
- * Measuring range: 0.000~2Ω; 0.00~20Ω,0.0~200Ω,0~2000Ω
- * Measuring accuracy: Earth resistance:±2%±0.01Ω(2Ω);±2%±3dgt(20Ω/200Ω/2000Ω)
- * Earth Voltage Accuracy:±1%±4dgt
- * Packing/weight: knapsack/644g

Accessories :

- * Earth Resistance Tester x 1pc
- * Carrying case x 1pc
- * Simplified test wire x 1 roll
- * Green wire x 1 roll
- * Yellow wire x 1 roll
- * Red Wire x 1 roll
- * Auxiliary earth spike x 2pcs
- * Manual x 1pc
- * AA Battery x 6pcs
