

UT681A

Details:

- Audio hunt: 1Khz/2Khz high-frequency digital audio output the strong filter design, four kinds of tones transform can be directly charged test weak cable;
- Port flashes: switch turned directly identify cable access switch ports;
- Cable identification (CABLE ID): by ID adapter supports up to 16 simultaneous localization weak cable;
- Line-sequential scanning: twisted-pair telephone line real line-sequential scanning, visual identification of crosstalk, the branch lines;
- Loop resistance testing: directly test support PSTN / XDSL line and a variety of wire loop resistance, save carrying multimeter tedious;

The multifunctional cable tester kit · UT681A be able to help you in network construction and maintenance process, to quickly find the network cable to quickly locate the point of failure, and verify that the Ethernet cable connectivity.

Technical Specifications

Basic functions	UT681A
Audio hunt	√
Port flashing	√
Cable identification	√
Line-sequential scanning	√
Loop resistance testing	√
Special Function	
Test port	RJ-45 x1, RJ-11 x 1
User Interface	2.0 "LCD display, resolution of 128 × 64; LED x1; function operating button × 5
Language version	Chinese operation menu
Weight	100g
UTN-01 (hunt pen)	
Test port	RJ-45 x1
User Interface	LED x7;
Weight	85g
Work environment	Operating temperature: 0 - 40 degrees; Storage temperature: -20 to 60 degrees; Operating Humidity: 95% relative humidity (non-condensing)
Power supply	2 x AA alkaline batteries or 2 x AA NiCd / NiMH battery
